WV Get 2 Know Your Neighbor Movement

WV Get to Know Your Neighbor is an initiative to unite communities in West Virginia through bringing people together to address social, political, and economic issues. Getting to know your neighbor is the first step.

As founder of the “Get to Know Your Neighbor Movement,” I believe everyone has something to contribute to themselves and to the community. When we see each others strengths as contributions to something greater, we empower our community. When we invest in that strength, we invest in that community’s full potential.

I welcome you to become a part of a movement that was once a way of life:

- Neighbor Helping Neighbor •

— Wayne B. Worth

Community Empowerment

Get to Know Your Neighbor is about breaking down barriers of fear and self doubt through reaching out to others. It is about opening a dialogue, supporting each other’s strengths, and forming a partnership. It is about taking that partnership to the community and building a network. Through networking with the community and its many social, political and economic infrastructures, **Together** we can create the change that we want. **Together** we can empower ourselves, each other, and our community.

Our Goals

- To Breakdown barriers and open dialogue.
- To Find common interests and concerns that people have in there community.
- To Identify the strengths of the community.
- To Identify areas for potential community growth.
- To Advocate the importance of people being civically active through promoting participation in neighborhood clubs and community organizations.
- To Work Together to better utilize our resources
- To Generate Ideas for the future by Networking with the public and its many entities
- To Create tangible outcomes in the community
- To Advocate for the support, awareness, and wellbeing of our neighbors through actively showing visibility and substance in the community.

How We Do It

Opening a dialogue is the first step towards community empowerment.

- By going door to door, we show an interest in our neighbors, actively seeking the real issues that affect their lives, and recognizing that their ideas for change are strong contributions towards our community’s growth and future empowerment.
- By hosting activities and events in the community, we bring people from all walks of life together (i.e. Dinners, Cookouts, Block Parties, etc.).
- By coordinating with local social, political and economic organizations (i.e. churches, government, educational institutions, non-profits, employers, etc.), we will work together to organize Job Fairs, Business Expos, Art Shows, and other events that bring awareness to the tangible resources in our community.
